Large Orders Made Manifest Their Effect on Change.

NEW YORK, April 30.-It was general comment on the floor of the exchange that the market was full of direct buying and supporting orders.

'The most significant feature was the placing of large buying orders all around be for very strong interests. This buying helped turn the market after some sharp early declines and was followed by the appearance of large buying orders all around the room. So far there has been no urgent liquidation and the buying from the various sources has been more than enough to absorb all stocks offered, but some brokers have an idea that stocks will come out on rallies again as they did on every day last week.

Since the first hour fractional rallies occurred.

Commerce of the United States with Argentina aggregates more than \$-0,000,-000 a year, and is growing rapidly. In the fiscal year 1905—the year ending June 30—the total was \$39,000,000; in the calendar year 1905 the total was \$45,-500,000, and in the eight months of the fiscal year 1906, for which the Department of Commerce and Labor, through its Bureau of Statistics, has presented figures, the total of \$43,235,000 seems to justify the prediction that for the full fiscal year, which ends June 30, the figures will reach \$50,000,000.

COLORED DECK HAND

BALTIMORE, April 30 .- John Biscoe a colored deck hand on the barge

Juniata, lying at the Lazaretto Guano Company's wharf, foot of Clinton street, was overcome by the fumes of guano early this morning, and died without regaining consciousness. Capt. Henry Evans, master of the barge, was also overcome by the gases, but recovered. The Juniata was loaded with fertilizer, and this morning hefore sailing Captain Evans and the deck hand went into the hold to mend a leak that had been discovered. Half ar hour later both men were found by employes of the Guano company lying across the bags of fertilizer in the hold in an unconscious condition. They were lifted to the deck, and Dr. Eurk, of Canton, was summened. The physician applied restoratives and his efforts were finally rewarded by the revival of Captain Evans. The colored man, however, was past help.

The accumulation of gases in the hold was due to the battening down of the hatches after the vessel had been loaded the night before.
